## FULL STACK WEB DEVELOPER

As a proactive Full Stack Web Developer, I bring a relentless passion for continuous learning and a remarkable ability to adapt to change.

Throughout my professional journey, I have thrived in team environments, tackling various challenges with a strong problem-solving ability and a consistently positive attitude.

I take pride in my capacity for hard work and am accustomed to performing efficiently under pressure, all while maintaining a good sense of humor.

My skill set and mindset are geared towards delivering excellence in every project I undertake.

## WORK EXPERIENCE

## DEVELOPE

Jul 2024 - Present  
REMOTE

## EMPLOYEE HUB PROJECT

This web application leverages React to encompass comprehensive employee management, including daily task communication, payroll management, labor calendar, contract management, incident reporting, and materials requisition.

- Built **REACT** web app
- Managed full employee lifecycle
- **Optimized task workflows**
- Implemented payroll & calendar

## DEVELOPE

May - Jun 2024  
REMOTE

## POKEAPI PROJECT

Developed a web application using PokéAPI to fetch and display Pokémon data, utilizing HTML5 and CSS for the front-end and JavaScript for the back-end to consume API resources, employing DOM manipulation for dynamic content rendering, and leveraging localStorage for persistent data.

Created a shopping cart system with a payment gateway integration.

- Developed PokéAPI web app
- Used **HTML5, CSS, JavaScript**
- Implemented **DOM & localStorage**
- Created cart & payment gateway

## DEVELOPE
